PRACTICE FOCUS
FAMILY LAW & DOMESTIC RELATIONS

During what is arguably the most impactful time in any person's life, Northern Virginia divorce attorney Kristina Cruz Skidmore carefully guides her clients through their family law matters with zealous advocacy and compassionate listening. Kristina ensures the best outcome for her clients by combining her legal experience with her client's individual, personal objectives while keeping her clients informed as active participants throughout the process. What results is a client-attorney relationship based on mutual trust, an effective legal strategy that efficiently pursues the client's needs and wishes and a shared stake in reaching a positive outcome.

From helping clients to understand, navigate and reconcile issues involving child custody, property division, dividing businesses or property transfers to being a zealous and dogged advocate in high-conflict cases, Kristina takes a transparent, conciliatory approach to marital and family dispute resolutions. While out-of-court resolution is always her preferred outcome and initial goal for any client, Kristina advocates with poise, passion and legal acumen in the courtroom when settlement is not possible.
